MONTESSORI

Privacy Permission Release

Our first priority is to protect your family's health and safety. We utilize Brightwheel which allows us to share pictures of your child. Many times we have pictures with multiple children within one picture. Normally when this happens, we tag the families within the picture.

To ensure that we are operating with your full understanding and agreement about your privacy, we ask that you grant permission to conduct the following activities.

- **Sharing photos of your child on our Brightwheel software. NOTE: Other families may see the photo of your child if the other family is "tagged" on it.**
- **Taking photos of you or your child during our program.**
- **Using photos of your child on our website and social media.**
- **Posting artwork and other crafts that include your child's name around our center.**
- **Listing your child's name in our newsletter and posting this information on our bulletin board.**

Please sign stating that you understand and agree to our "Privacy Permission Release" policy. Thank you!
